

Greetings and I do hope this finds you well--

We would typically be gathering Thursday for our FireSafe Flathead meeting so I wanted to pass along the word that we will not be meeting this month and will consider the option for June.

Even though we are not meeting face to face, there is still a lot of good work getting done out there and we want to thank you!

- Mike West (Fuels AFO for Tally RD of the Flathead NF) is a master at cross-boundary coordination and is continuing to work his magic! Details coming soon...
- Deb, Carrie, Carol, and others with the NW Montana Hazardous Fuels program are upgrading mapping software and are always working with several communities on administering fuels reduction projects.
- Shawn and the NRCS are working on their Ashley Lake project area-- let us know if you would like any outreach materials, presentations, or assistance of any sort.
- Allen Chrisman is planning for this summer's annual Firewise gathering in the North Fork, a community providing a shining example of how folks can work together, stay committed, and make a difference.
- Lincoln has copies of the recently updated Community Wildfire Protection Plan (CWPP) printed and ready for review. Give let him know if you would like a copy!
- Rick Trembath is helping out with a Climate Smart Glacier Country filming project about burning clean, safe piles!
- Our Smokey Fire Danger sign is in and ready for installation, we just need to determine where it will be installed and who is ready to assist with that effort :)
- We have funding available to boost our website and are working with the original developer to make those improvements!
- If possible, interagency fire personnel will gather to present to West Glacier. Plans are in the works and will be adjusted as needed.

If you have a project, an idea, an opportunity for cross-boundary coordination, for community engagement, for furthering our goals of creating fire adapted communities & resilient landscapes, reach out and let us know. We have a team of folks ready. to devote energy and creativity..

Thank you and I hope to talk next month!

Ali
